

Old and new. Classic and contemporary. Traditional and innovative. Welcome to The Colony Premium, the new designer floor of The HHI Kolkata... where we sell indelible experience and not just the room.

A tribute to contrasts by renowned architect Juneja Associates led by celebrity designer Deepa Sama, in association with Anita Dalmia, a reputed fabric designer, the floor is a verse of romance of the bygone era that makes room for the élan of avant-garde imagination. The arresting furniture of the past is juxtaposed with present-day eye-catching furnishing while traditional tables are lit by the lamps, encased in shades of novel designs. The allure of the rooms is further enriched by the elements and hues of nature dotting the rooms' wall, bed, curtain and furniture.

Here, a different kind of blend is also discovered. The concoction of style and the necessities. The rooms are inundated with sunlight while the nights, if one desires, turn into days with artificial daylight. The stylish rooms are replete with all the modern tech-amenities like printer, Ipod doc, home theatre solution with an in-room DVD player, wi-fi connectivity et al, transforming them into in-room business centres, aptly meeting the needs of the contemporary traveller. An enviable collection of movies and music adds to the entertainment quotient for the visitors. The rooms are also equipped with a Pillow Menu to suit individual needs.

Every corner of The Colony Premium gives rise to moments of opulence and comfort that linger in one's mind, forever.
